

Instructions:

Your task is to create a simplified CAD model of a standard 18-cubic foot fridge (not an exact volume) that holds enough groceries for 2-4 people. Below are images of the actual product alongside a CAD model and a simplified CAD. You are only given the dimensions of the overall shape-- the wall thickness, interior layout, and shelf sizes are up to you to determine. **You are allowed to collaborate with others on your fridge design, but please do not use the Internet/other tools to look up dimensions.**

Once you are satisfied with your design, upload it to a simple VR simulation using the Unity template. You can check the size of your fridge by placing objects inside. Feel free to iterate your design by returning to the CAD model, updating, and checking your work in VR. Keep track of how many times you use VR to check your work. Once you are satisfied with your design, upload your CAD file here. **The design with the dimensions closest to the model will win a special prize!**

Product Details

Overall Specs:

Total exterior dimensions
(H x W x D):
66.4 in x 29.5 in x 30.75 in

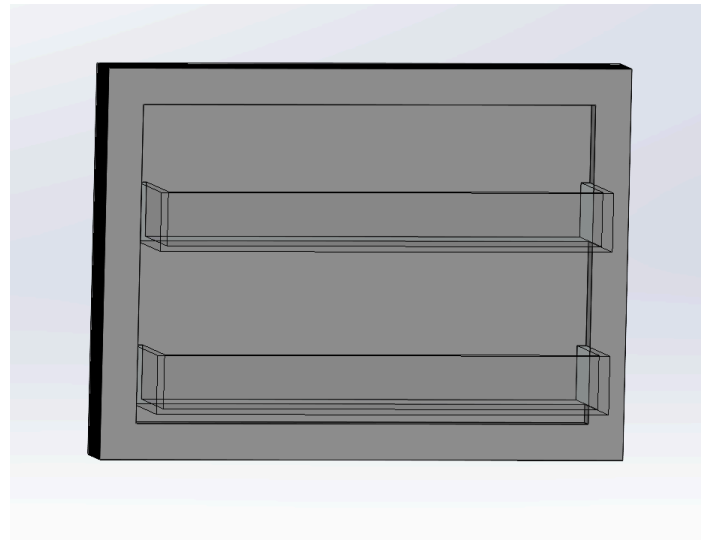

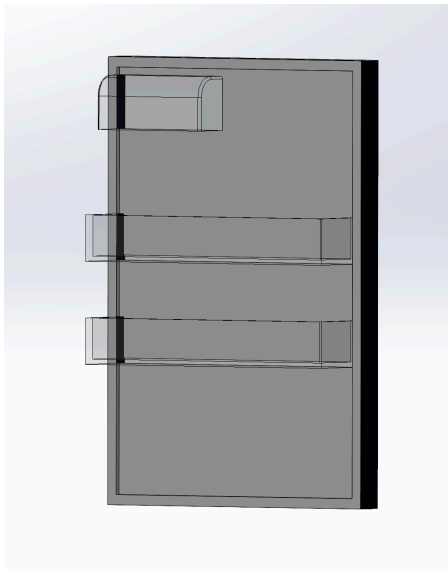

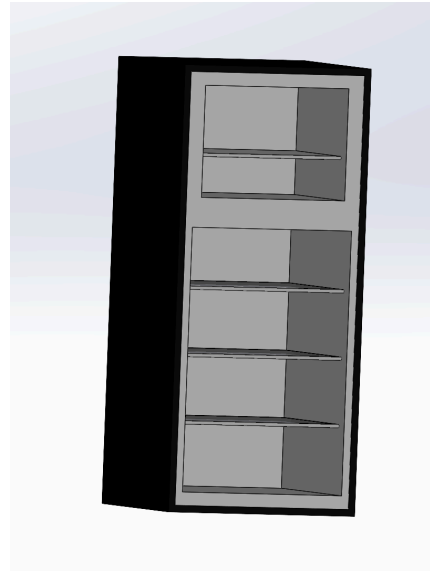

OK to omit the following (will not be judged):

- Ice maker
- Interior light
- Fruit/ veggie
Drawers
- Minor details
 - Trim
 - Insets
 - Fillets
 - Materials
 - Colors

Detailed CAD model of product

Required CAD model of product (3 parts):

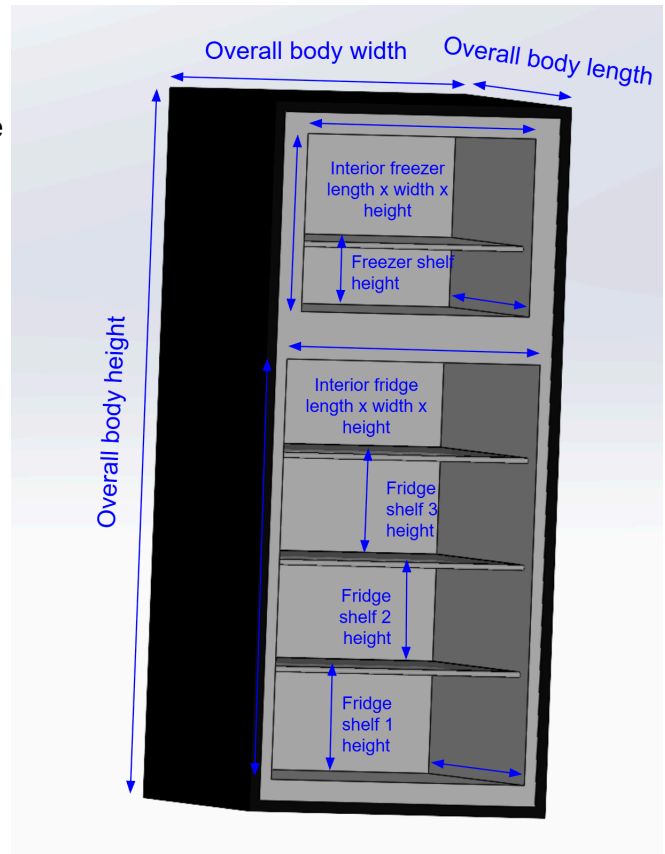

Requirements:

Make sure you create **three parts** for this assembly so that the doors are open!

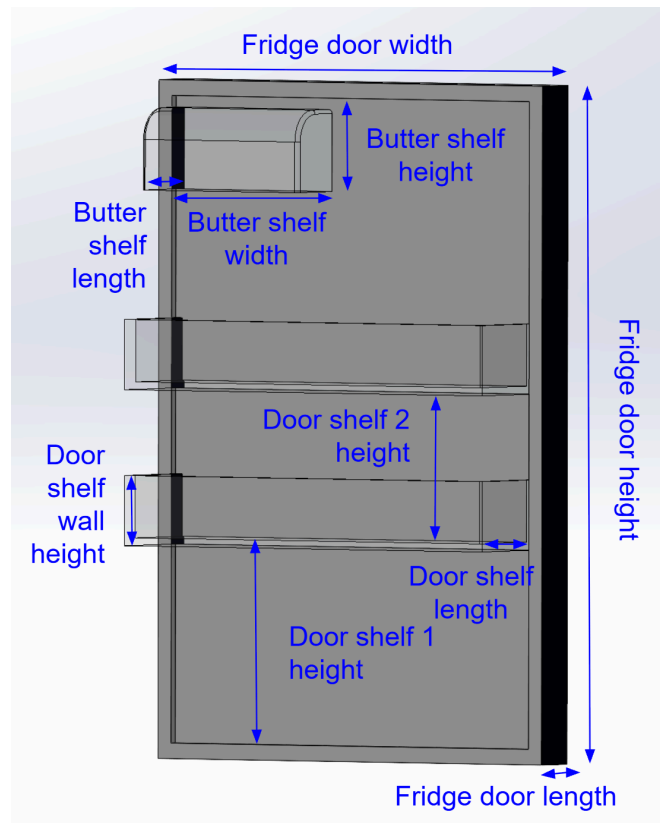

Refrigerator & Freezer Body:

- Fridge: Three glass shelves (can omit the fruit/veggie drawers)
- Freezer: One shelf; the walls of the freezer are slightly thicker than the walls of the fridge

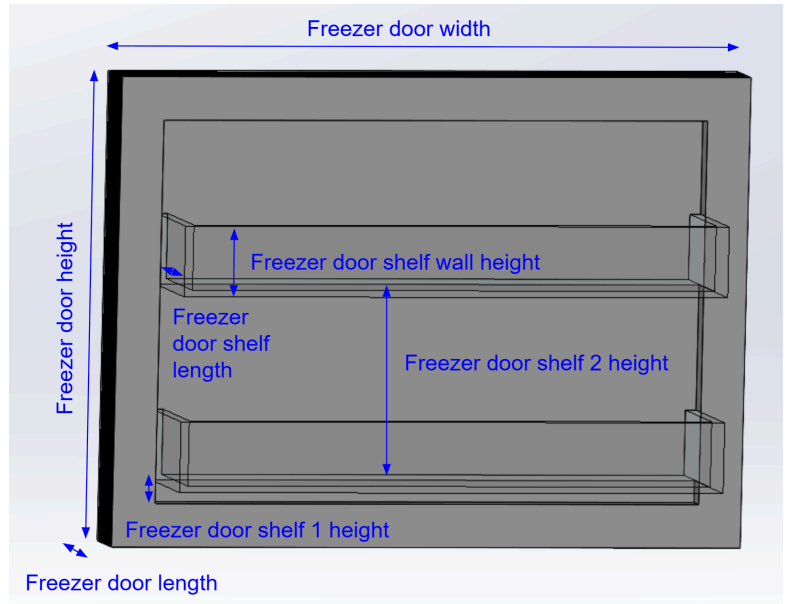

Refrigerator door:

- Single door
- Two door shelves
 - Door shelves must be offset from the main shelves so that the door can close
- Butter shelf

Freezer door:

- Two door shelves
 - Door shelves must be offset from the main shelves so that the door can close

Judging Rubric

- ☐ Overall dimensions correct
- ☐ Interior fridge dimensions correct
- ☐ Interior freezer dimensions correct
- ☐ Fridge shelf dimensions
- ☐ Fridge shelf placement
- ☐ Freezer shelf dimensions
- ☐ Freezer shelf placement
